Per quanto riguarda le PI a livello internazionale, il CdS in Infermieristica di Modena ha indagato l'ambito di tirocinio all'estero dei propri studenti frequentanti il programma Erasmus Plus, mediante la somministrazione di un questionario, al fine di rilevare il livello di preparazione e le competenze possedute. Per la realizzazione del questionario è stato preso in considerazione l'elenco delle competenze da sviluppare nell'ambito dei CdS in Infermieristica dei Paesi europei, identificate dal progetto *Tuning for Nurses* dell'Unione Europea.
